

GLOBAL LEADER IN MANAGED SERVICES

A next generation MSP, Datapipe is recognized as the pioneer of managed services for public cloud platforms. Datapipe has unique expertise in architecting, migrating, managing and securing public cloud, private cloud, hybrid IT, and traditional IT. The world's most trusted brands partner with Datapipe to optimize mission-critical and day-to-day enterprise IT operations, enabling them to transform, innovate, and scale. Gartner named Datapipe a leader in the Magic Quadrant for Cloud-Enabled Managed Hosting. In 2016, Datapipe acquired Adapt, a leading managed cloud services provider and advanced AWS consulting partner based in the UK.

CUSTOM SOLUTIONS BASED ON YOUR UNIQUE REQUIREMENTS

INDUSTRY LEADERSHIP

Consistent recognition from industry analysts including Gartner and Forrester

CONSULTATIVE APPROACH

Engages with clients and provides recommendations for optimization

GLOBAL NETWORK

World-class data centers provide global reach, scalability, and organizational agility

AWARD-WINNING SUPPORT

24x7x365 live customer support with immediate access to certified experts

SECTOR EXPERTISE

Broad range of experience and capabilities applicable to multiple vertical industries with complex infrastructures

SECURITY & COMPLIANCE

Meet the demands of HIPAA, PCI DSS, SOX and FISMA

"AWS and Datapipe have had a long, close relationship and we are working together to bring best-of-class cloud solutions to enterprise customers."

Terry Wise, Director of Worldwide Partner Ecosystem, AWS

"Datapipe's experience in managing cloud environments for customers around the globe makes them well-positioned to help drive Alibaba Cloud deployments for customers in both China and overseas."

Unique Song, Director of Global Marketplace Alliances Program at Alibaba Cloud

"Datapipe's capabilities to manage hybrid environments as well as integrate with Azure's public cloud environments, make the company a natural fit to work with Azure."

Aziz Benmalek, VP Worldwide Hosting & Cloud Services, Microsoft

AREAS OF SPECIALIZATION

PROFESSIONAL SERVICES

Begin your cloud adoption strategy with an assessment & consulting services, and continue your journey with extended engagements from Datapipe infrastructure experts

MIGRATION SERVICES

Minimize the risks associated with relocating data, hardware, and applications with Datapipe's "Guaranteed Safe Passage" Migration Services

CLOUD PLATFORMS

Choose Public, Private, & Hybrid Cloud Computing for Managed Cloud for AWS, Managed Cloud for Azure, Managed Cloud for Alibaba, Datapipe Stratosphere, and Virtualization

DEDICATED HOSTING

Trust Datapipe personnel, facilities, and expertise to manage/maintain all equipment, hardware, and firmware 24x7x365

MANAGED SECURITY

Customize your security services with Firewall management with rule-set review, multi-factor authentication VPN services, intrusion detection services, event management, internal and external vulnerability assessment, system integrity monitoring, secure configuration assessment, patch management, transparent database encryption, and PCI DSS compliance services

COMPLIANCE SERVICES

Meet compliance requirements for PCI DSS, HIPAA, GLP, EU-US Privacy Shield, SOX, and FISMA/FedRAMP

MANAGED STORAGE

Benefit from storage options available to you such as local disk arrays to high performance SAN storage systems running on Fibre Channel (FC) drives, also applied to client-owned equipment

DATABASE MANAGEMENT

Improve performance with OS and database application support, proactive monitoring, reporting, and support for environments on approved systems

MANAGED APPLICATIONS

Save time, maintain a stable computing environment, and receive templates for core processes and procedures based on ITIL best practices

HIGH PERFORMANCE NETWORK

Receive direct support from expert engineers with extensive experience in multi-vendor environments

COLOCATION SERVICES

Lower infrastructure costs with direct connectivity to the Datapipe network. Managed Colocation services are also available, providing the full suite of Datapipe's Managed services
